Ultra-Miniature 36~90 Watt Desktop Supplies are EISA, CEC Level IV and Energy Star Compliant

Power specialist Advanced Power Solutions (APS) announces the release of their new A series of 36~90 Watt Single Output Desktop Switching Power Supplies featuring ultra-miniature size with extremely high efficiencies and low standby power consumption for compliance to the Energy Independence & Security Act of 2007 (EISA), Energy Star and CEC Level IV standards.

Using the latest in high-density, high-efficiency design topologies, APS has developed the A Series to satisfy the requirements of the latest energy standards while still achieving miniature size at a competitive price. The A Series consists of 36 / 50 / 60 80 / 90 Watt platforms with single outputs ranging from 12~48 VDC with unique setpoints available upon request. Features include efficiencies in excess of 85%; standby power of less than 0.5W; Universal AC Input; Class B Emissions; Short Circuit Protection; Over Voltage Protection; and worldwide safety approvals including UL/cUL60950-1 / EN60950-1 / CE Mark (LVD).

Evaluation quantities are on-hand with production deliveries of less than 8 weeks. Specifications are available for download from <http://www.advpower.com/desktop.htm>. Pricing is as low as \$13.00 in 100 piece quantities for 36 watt models. Contact APS at 925-734-3060 or sales@advpower.com for sales & technical support.
